

BCECA Objectives 2020

For the first time ever, BCECA's Council and Committees have defined a set of objectives for themselves for 2020. Council Members have been assigned to lead on each of the five objectives that Council will focus on during the year:

- New Member Recruitment - Neil Bowman to lead
- Review of Membership Structure & Grades - Usman Darr / Mark Stanton to lead
- Revision of Industry Statistics Survey - Malcolm Crawford to lead
- Committee Overview and Support - Julia Humpidge to lead
- Energy Transition, Sustainability and Climate Change Statement - Ashley Anderson to lead

Full details of these objectives plus those for all BCECA Committees can be viewed by BCECA Members on the BCECA SharePoint.

BCECA COUNCIL AND COMMITTEE OBJECTIVES FOR 2020

- **BOARD**
Governing Body for BCECA, providing effective strategic leadership, direction, challenge, support, guidance and fiscal oversight of the organisation.
- **COUNCIL**
Forum of senior Member company representatives for discussion, review, development, lobbying, representation and update on matters of common interest to BCECA Member companies. Oversight of all standing committees and special interest groups.
 - > **New Members – Minimum of 2**
 - o Identify target list
 - o Understand benefits and lobbying ability
 - o Neil Bowman to lead
 - > **Membership Structure & Grades**
 - o Tiered structure?
 - o Introductory bonus / discount for 2 years?
 - o Associate grade?
 - o Partner members
 - o Small consultancy members
 - o Usman Darr / Mark Stanton to lead
 - > **Industry Statistics Survey**

DESIGN, HEALTH, SAFETY & ENVIRONMENT
Forum for discussion, review, development, lobbying and representation on safety and environmental matters related to design within the process industries.

Meeting agenda to include IChemE and EI updates, legislation review, safety standards review, including revisions to existing standards and new/evolving standards. Item on recent incidents/safety violations to remain.

- o We are keen to get some representation on BSI standards committees.
- o We have sourced three guest speakers for 2020, including a representative from the HSE.
- o Decarbonisation and Sustainability – jointly with Process

The committee is keen to address a couple of ongoing issues concerned with safety in the contracting industry:

- o The ongoing shortage of process safety engineers
- o A route into process safety other than a degree

Council member presentation

At the Council meeting on Tuesday 21st January 2020, a presentation was made by CEO Tracey Shelley and Vice-chair Malcolm Crawford to Tony Lake, EniProgetti, to recognise and thank him for his 20 years' service to the BCECA Council and Committees and to wish him well in his retirement.
