

BCECA Industry Day Working Group

The 2nd meeting of the BCECA Industry Day Working Group took place on 30th April. The Group comprises representatives from Bechtel, Johnson Matthey, KBR and Wood. Its aim is to develop new materials that can be used to promote the Engineering Contracting sector and the BCECA Member companies to mechanical, electrical and structural / civil engineering students within universities. The Group has agreed an initial pilot programme structure which will focus on introducing risk, health and safety related information and activities that will be engaging and relevant for the students to easily understand whilst gaining an insight into our sector and its potential employers. It is hoped the new materials will be ready for trialling in the new academic year.

ECITB EDP & South Summer Conference

On Wednesday 1st May, Tracey and Conni attended the ECITB EDP & South Region Summer Conference at the Royal Academy of Engineering offices in Carlton House Terrace, London with a view to promoting BCECA membership to ECITB Inscope companies. New promotional flyers were produced for the event and are available for Members to distribute. Please contact Conni for copies.

The purpose of the event was to bring together all Inscope companies across the region to share knowledge and provide networking opportunities with other ECITB companies, approved training providers and membership organisations. Presentations included:

- The Importance and Benefits of Employer Engagement in Vocational Learning at University Technical Colleges (UTCs);
- Student Feedback from UTC/Employer projects;
- How Employers can Engage with Students via Local Enterprise Partnerships (LEPs);
- ECITB Strategic Update & LMI Report;
- Online Technology and Training Programmes;
- Local Industrial Strategies and their Role in Developing Local Areas and Skills Priorities.
