

4th UK CCUS & Hydrogen Decarbonisation Summit

BCECA are pleased to be supporting the 4th UK CCUS & Hydrogen Decarbonisation Summit on 21st and 22nd March at the Leeds United FC Stadium in Elland Road, Leeds.

The Summit will assess and review the opportunities within the UK Energy Sector and also consider how hydrogen can help the UK develop its own green energy source. The 4th UK CCUS & Hydrogen Decarbonisation Summit will also focus on the projects and innovation around CCUS within industrial operations and how hydrogen can decarbonise industry and transport. More information on the event and how to book can be found [here](#).

Full details of BCECA's upcoming third virtual annual conference will be unveiled in our next newsletter. Please make sure to bookmark the date: 4th October 2023.

Engineering UK Apprenticeship Consultation

In January, the Engineering UK published a call for responses to its apprenticeship inquiry led by Lord Knights and Lord Willetts entitled, "Fit for the Future: Growing and Sustaining Engineering and Technology Apprenticeships for Young People". The BCECA Engineering Managers reviewed this request at their January committee meeting and decided to submit a BCECA response explaining the barriers to why so few BCECA employers engage and train apprentices and offering possible solutions going forwards to help increase their uptake. Particular thanks go to the chair of the Engineering Managers Committee, Tim Smith of Worley, who worked with Tracey Shelley at BCECA to compile the BCECA submission, which can be read [here](#).

Forthcoming Online BCECA Meetings

2nd March	Supply Chain Managers	16th March	Young Engineers
21st March	BCECA Board	30th March	Information Managers
27th April	Engineering Managers	9th May	BCECA Board / Council
18th May	HR Managers	6th June	DS&E
