BCECA confirms date for 2023 annual conference

Scan me to read the conference announcement

BCECA's virtual annual conference returns in its regular slot on the first Wednesday of October.

The free and fully online event will take place on Wednesday 4 October 2023, with the opening session going live at 09:30 (UK). The conference will focus on the UK's implementation of CCUS and hydrogen infrastructure and examine solutions to the challenges presented by the delivery of large-scale decarbonisation projects.

The provisional programme will be published on 16 May 2023, with registration opening on the same date.

The findings and recommendations arising from the conference will be presented at an in-person reception in Central London in November 2023, with all conference participants eligible to attend.

ENDS
