

BCECA Conference

On 4th October BCECA held its 3rd annual virtual conference, “The energy transformation challenge – making it a reality”. This was our most successful event to date. Over 240 delegates joined us online on the day, with many more watching via a live stream within their member company offices, taking our total viewers to over 330.

BCECA Chairman, Mark Stanton, opened the conference and then introduced Lord Ravensdale as the morning keynote speaker, setting the scene for the day. A further twenty two industry speakers were involved in delivering a series of presentations and panel discussions across the five sessions throughout the day. They addressed the complexities of the energy transformation, including skills supply, process safety, engineering design, project execution and the need for collaboration and communication before, during and after construction. BCECA’s Chief Executive, Tracey Shelley, then provided the closing remarks and announced the date for BCECA’s 4th virtual conference – **Wednesday 2nd October 2024**. Please be sure to put this date in your diaries!

We are tremendously grateful to all our conference sponsors and media partners, without whose support we would have been unable to offer this free-to-attend event: NES Fircroft, Centuro Global, ERM, Fluor Corporation, Organic P&O Solutions Ltd, Taylor Woodrow, ECITB, Hexagon AB, Johnson Matthey, Kent, J. Murphy & Sons Limited, Petrofac, ACOSTE, Energy Institute, IChemE Safety Centre, Tank Storage Association and Chameleon Events.

Further thanks go to the BCECA Conference Technical Working Group, Cogent Content, SevenEvents, Malcolm Crawford and Conni Lambinon who all worked behind the scenes to ensure the success of the event.

Recordings from the full day’s event can be viewed on the BCECA website: <https://www.bceca.org.uk/events/>

The conference report back will be presented at the House of Lords networking event which is being kindly hosted by Lord Ravensdale on Tuesday 21 November.

Forthcoming Online BCECA Meetings
